

St Lucie County Situation Report

Department Of Public Safety
and Communications

Preparation

Response

Recovery

Event: Deepwater Horizon

SIT REP # 4 1100hrs May 8, 2010

EOC Activation: 3

SEOC Activation: 2

LSE Date and Time: None

State of Emergency: 04/30/10 (affected Counties)

SITUATION SUMMARY

St Lucie County Actions:

Monitoring situation
Maintain SITREP
Monitor event and FL DEM EM Constellation database for updates
Developing maps for environmentally sensitive areas, mosquito impoundments and industry
In process of validating environmentally sensitive priority designations
Participating in daily conference call with FI DEM
Participating in USCG District 7 conference calls
Will attend USCG District 7 planning meetings
Created links to pertinent web sites to county's web site
Marine Safety Division is performing daily beach clean-up in and outside their normal areas of responsibility

Short term objectives

1. Identify response agencies
2. Develop information sharing procedure
3. Identify potential impacts to St Lucie County
4. Establish briefing/meeting schedule
5. Verify USCG Area Contingency Plan reflects St Lucie County's needs

Long term objectives

1. Monitor water for oil or affected wildlife
2. Document local resources used
3. Research and track financial impacts and tourism

State Actions:

- Governor Crist Signed Executive Order (EO)10-99 April 30th and amended it with EO 10-100 May 3rd, declaring a State of Emergency for the following counties: Escambia, Santa Rosa, Okaloosa, Walton, Bay, Gulf, Franklin, Wachula, Taylor, Jefferson, Dixie, Levy, Citrus, Hernando, Pasco, Pinellas, Hillsborough, Manatee and Sarasota.
- BP has released 25 Million dollars to the State of Florida
- An EM Constellation database named "Deepwater Horizon" has been established to coordinate information and mission management
- Issued guidance on reimbursement
- SERT is conducting daily conference calls with county and emergency management partners to ensure there are open lines of communication and information flow
- Has established Unified Command in St Petersburg
- Inlet State Park staff conducting daily beach clean up
- Governor Crist has sent a letter to President Obama requesting a \$50 million disaster Emergency Grant
- DEP, the Florida Fish and Wildlife Conservation Commission (FWC), county governments, water management districts and several federal agencies continue to conduct pre-impact assessments, including sampling of water, fish, shellfish and habitats along the Florida coastline and into the Gulf of Mexico
- Statewide air quality monitoring is ongoing in coordination with the U.S. Environmental Protection Agency

Unified Command Actions:**Wellhead (Blowout Preventer) Activities**

- BP continues work to activate the blow-out preventer (BOP) on the well using submersible remote operated vehicles (ROVs). 1 of 3 wells has been capped
- BP has two drilling rigs ready to drill the relief wells designed to intersect the leaking well. Weather continues to delay drilling operations
- The Cofferdam (canopy) is in place over the well. It is expected to be operational tomorrow
- **Surface – Oil Spill Response Activities**
- Booming, skimming and In-situ burning in progress
- No confirmed oil on land yet
- Rapid response teams are ready to deploy to any affected areas to assess the type and quantity of oiling, so the most effective cleaning solutions can be applied
- NOAA is restricting fishing for a minimum of ten days in federal waters most affected by the BP oil spill, largely between Louisiana state waters at the mouth of the Mississippi River to waters off Florida's Pensacola Bay. The closure is effective immediately. This order balances economic and health concerns and only closes those areas affected by oil
